Introduction

We are a bespoke, technology-led security solutions provider. We provide you with a breadth of experience and knowledge across a wide range of services and products.

Envision is a one-stop provider of security excellence for today’s and tomorrow’s businesses.

From award winning rapidly deployable security and access control systems through to complete remote monitoring via Envision’s in-house CAT1 Alarm receiving Centre (BS EN 50518), Envision has placed itself at the cutting edge of the security industry.

Operating across the UK & Ireland for over 25 years

We offer extensive experience and expertise in the security service industry, utilising award-winning technology and adhering to recognised quality standards.

Our Mission

At Envision, we aim to deliver affordable and innovative security solutions that meet our customers’ needs and provide ultimate protection.

We combine invaluable experience with fresh and innovative ideas to produce a bespoke security solution.

Envision design, install, maintain and monitor – all through one simple pricing system.

Integrating technology with a human interface, Envision delivers increased security protection in tandem with significant cost reductions and efficiencies.

We have worked over the years to develop a fully-managed service that encompasses all aspects of security, tailored to your specific needs.

# What's Important to Us

## Our Values

We combine invaluable experience with fresh and innovative ideas to produce a bespoke security solution.

 Service Delivery

 Exceed Expectation

 Client Focused

 Unique

 Respect

 Excellence

## Testimonials

*“Partnering with Envision has been a great experience for us, their service and dedication have consistently surpassed our expectations. The Envision team are professional, responsive, and always focused on delivering the highest level of support. We’re thrilled with the value they bring and look forward to many more successful collaborations.”*

Stacey, SGC

*“Excellent customer focus from the sales team and deals with the flow of project requirements with ease.”*

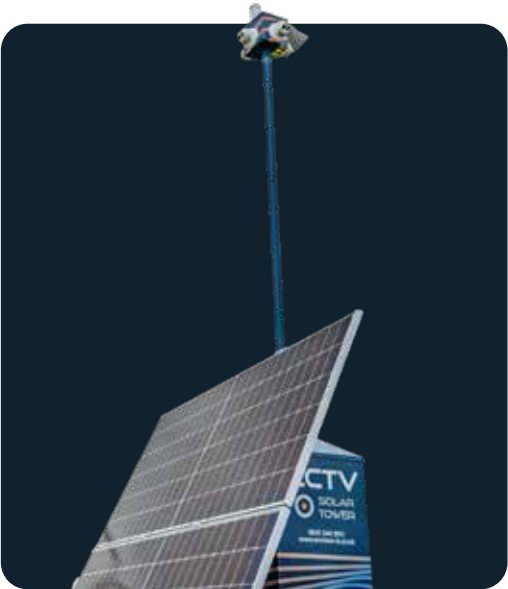

Alex Brunsdon, Veritech

*“Envision are our one stop shop for all our site security needs. Whenever we need to reinforce our vacant sites and show CCTV presence, Envision are always there to ensure our needs are met.”*

Brad, Even Group

### Meeting Your Security Needs

Envision Intelligent solutions has an ongoing drive to introduce new technology and methodologies to ensure our services and products exceed the everchanging security requirements of our customers. With this, we offer our Helpdesk solution.

### After-Hours Support Services

Our robust suite of after-hours support services is designed to ensure seamless operations and exceptional service, no matter the time of day. Here's what we offer:

-  **24/7 Virtual Receptionist**
-  **Out of hours engineer tasking**
-  **Out of hours call logging**
-  **Out of hours call handling**
-  **Message logging**
-  **Engineer fault reporting and logging**

### Excellent Customer Service

We become an extension of your team, with a dedicated account manager and 24/7 Helpdesk.

### Envision ARC (Alarm Receiving Centre)

The Envision ARC can monitor all your sites, no matter where they are, to keep things even more simple.

### One Point of Contact

For all your security needs. Intruder alarms, fire alarms, CCTV, remote monitoring. We do it all.

### Upfront Pricing

With upfront pricing, you will know exactly what you're getting and how much it will cost.

### Always Available

Our in-house team of controllers operate 365 days a year, 24 hours a day from our CAT 1 ARC.

### Free Surveys

Free surveys and personal consultations to assess individual client's needs.

# How We Specialise by Sector

## Range of Industries

Find out how our range of security products have been applied in different industries. If your sector isn't listed, please get in touch to see how we can help.

A photograph of a modern, multi-story commercial building with a glass facade.

## Commercial Premises

Envision provides temporary security solutions for vacant properties, protecting against break-ins, theft, vandalism, and squatters, with no long-term commitments or permanent building changes.

A photograph of a construction site with a chain-link fence in the foreground.

## Construction

Envision secures construction sites with advanced technology, addressing issues like arson, vandalism, theft, and site access. Pricing includes maintenance and installation for easy budgeting.

A photograph of a complex highway interchange with multiple lanes and overpasses.

## Critical Infrastructure

Physical security is where we can help. We provide tailored, robust security systems to help governments and local councils protect critical infrastructure from vandalism, theft, and arson.

A photograph of a busy retail store with many people walking on a staircase.

## Retail

Envision offers security solutions for boutiques, chains, and shopping centres, with 24/7 support and a dedicated account manager. Our surveillance systems are monitored remotely.

A photograph of a data center aisle with rows of server racks and blue cables.

## Data Centres

Data Centres store sensitive data, making robust security essential. Envision's CCTV systems are remotely monitored by our CATI BS EN 50518 Alarm Receiving Centre, meeting industry safety standards.
